

Dear Alumni:

This year marks the 30th Anniversary of the Cincinnati Genetic Counseling Graduate Program (GCP). In December, we sent a survey to the GCP alumni regarding interest in having a 30th reunion this coming summer and received a very positive response. As a result, a committee has been formed to oversee development of this event and has selected the dates of June 15 and 16, 2012 (Friday and Saturday) to celebrate the 30th Anniversary of the GCP. While the details of the weekend are to be worked out, we anticipate an informal event Friday evening, some activities in and around the GCP facilities, and the city more generally, on Saturday, and a celebration dinner Saturday evening.

If you are able to arrive early, please consider participating in the DNA sample day

(http://geneticcounseling4u.org/prospective_students/DNA%20Sample.html)

for prospective students.

We hope you will put these two days in your calendar now, and plan to join us, hopefully with spouse and/or family in tow. More details will be provided over the next few months, along with the opportunity to make reservations.

All the best for 2012!

Melanie
